CAREER OBJECTIVES

Self-driven and adaptable developer with a strong passion for rapid learning, continuous growth, and staying updated with emerging technologies. Eager to contribute to innovative projects while expanding technical skills.

EDUCATION

- **Master of Computer Application** – (2023 - 25)
  Vellore Institute of Technology
- **Bachelor of Computer Application** – (2020 – 23)
  Vellore Institute of Technology

TECHNICAL SKILLS

- **Frontend** - HTML5, CSS, Java Script, ReactJS
- **Backend** - JAVA, JDBC, NodeJS
- **Databases** - MYSQL, SQL, MongoDB
- **Cloud / Version Control** - MongoDB Atlas, Git, GitHub
- **API** - REST
- **Tools:** Figma, Render, Postman, Android Studio, VS Code
- **Infrastructure:** Basic Networking
- **Familiar with** - AI Automation, Prompt Engineering , Firebase & Google AI Studio

INTERNSHIP EXPERIENCE

➢ **Kairaa Tech Serve, Vellore**

Intern Duration: July 2024 - Dec 2024

- Designed and developed the StartupConnect application, enabling streamlined networking and collaboration among startups, which is in live currently.
- Collaborated with a team to design the application's architecture and implement core functionalities.
- Utilized MERN STACK to build a user-friendly interface and robust backend.

➢ **Intellect Design Arena, Chennai**

Intern Duration: Jan 2025 - June 2025

- Developed, managed, and tested secure APIs using **iTurmeric**, a proprietary low-code platform by Intellect Design Arena.
- Applied **cryptographic techniques** within the iTurmeric platform to ensure secure API communication and data protection.
- Performed **end-to-end API testing** using **Postman**, validating request/response cycles and ensuring integration reliability.
- Gained hands-on experience in API lifecycle management, secure data transmission, and middleware logic handling in a financial technology environment.

REAL-TIME PROJECTS

- **StartupConnect application**

   Developed a web platform to connect startups with investors, mentors, and service providers. Implemented using the MERN stack (MongoDB, Express.js, ReactJS, Node.js), featuring user registration, profile management, and interactive dashboards. Enabled efficient networking and collaboration between early-stage startups and industry professional**s.**

- **KTech Digital Solutions (Digital Marketing Service Platform)**

   Full-stack development and deployment of a professional, client-facing website for a digital marketing agency specializing in services like SEO, Social Media Marketing (SMM), and PPC. The platform features a dynamic service catalog, lead generation forms, and a responsive display for case studies and business information.

- **Chit Fund Management System**

   Developed a comprehensive web platform for digital chit fund operations, enabling secure member management, automated auction processing, and real-time financial reporting. Enhanced operational efficiency through integrated KYC verification, automated wallet and commission calculations, and data-driven performance dashboards.

- **MERN Stack E-Commerce Application**

   Built a responsive full-stack e-commerce platform with secure JWT authentication, user and admin dashboards, coupon system, cart and wishlist management, and REST API integration. Deployed and maintained production-ready authentication and role-based access control.

SOFT SKILLS

- Rapid Learner
- Organizational Discipline
- Problem-Solving
- Cross-functional Collaboration
- Adaptability and Time Management
- Teamwork and Communication

CERTIFICATION

- ChatGPT and AI tools Certification
- IEEE Communication and Networking
- Introduction to the Forms of Cyber Security
- JAVASCRIPT and REACT JS - Google Developer Club

ACHIEVEMENTS AND EXTRACURRICULAR ACTIVITIES

- Participated in the Set Conference held in Vellore Institute of Technology and presented a paper on "Secure Cloud Backup using Multi-Cloud and Fog-Computing".
- Served as a **Student Volunteer** in an **NSS Camp**, contributing to community welfare and development initiatives. Certified by VIT.
