

Manish Kumar V

Full Stack Developer | React.js | Node.js | Java

+91-6385329793 | manishvm310@gmail.com | linkedin.com/in/manish310a | github.com/manish-vm | Portfolio

SUMMARY

Full Stack Developer with hands-on experience building enterprise HRMS, Manufacturing Execution Systems, FinTech APIs, and production web applications using React.js, Node.js, Express.js, Java, MongoDB, and MySQL. Strong foundation in Data Structures and Algorithms, Object-Oriented Programming, REST API design, database systems, and System Design fundamentals.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Responsive UI

Backend: Node.js, Express.js, Java, JDBC, REST APIs, JWT Authentication, Role-Based Access Control

Databases/Cloud: MongoDB, MySQL, MongoDB Atlas, Render, Firebase, Google AI Studio

Tools: Git, GitHub, Postman, Figma, Android Studio

Core CS: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks, System Design Fundamentals, SOLID Principles

EXPERIENCE

Focus Engineering

Mar 2026 – Present

Full Stack Developer

India

- Developing enterprise HRMS and Manufacturing Execution System modules using React.js, Node.js, Express.js, MongoDB, and REST APIs.
- Designed and implemented role-based access control, attendance workflows, shift management, employee operations, and analytics dashboards.
- Built configurable manufacturing workflows with stage routing, inspection forms, rejection/rework handling, Excel import/export, and production tracking.
- Improved application reliability by debugging API failures, validating data flows, and optimizing frontend/backend integration for production deployments.

Intellect Design Arena

Jan 2025 – Jul 2025

Software Engineering Intern

Chennai, India

- Developed, managed, and tested secure REST APIs for enterprise financial technology applications.
- Applied cryptographic techniques for secure API communication, encrypted data exchange, and data protection.
- Performed end-to-end API testing using Postman and validated request/response cycles for integration reliability.

Kairaa Tech Serve

Jul 2024 – Dec 2024

Full Stack Developer Intern

Vellore, India

- Developed StartupConnect, a live MERN platform connecting startups, investors, mentors, and service providers.
- Built responsive React interfaces, Node.js/Express APIs, authentication flows, profile management, and dashboard modules.

PROJECTS

Manufacturing Execution System | React.js, Node.js, Express.js, MongoDB, REST APIs

- Architected configurable production workflows supporting multi-stage inspection, dynamic routing, QR-enabled tracking, rejection/rework flows, Excel import/export, and production analytics.

Enterprise HRMS Platform | React.js, Node.js, Express.js, MongoDB, RBAC

- Built attendance, shift management, employee workflows, role management, dashboards, reporting, and secure authentication for enterprise workforce operations.

MetroMens E-Commerce | MERN, JWT, Admin Dashboard | Live

- Developed a production e-commerce platform with JWT authentication, user/admin dashboards, cart, wishlist, coupons, and REST API integration.

StartupConnect | MERN Stack | Live

- Built a networking platform for startup ecosystem collaboration with registration, profile management, dashboards, and collaboration workflows.

EDUCATION

Vellore Institute of Technology

2023 – 2025

Master of Computer Applications

Vellore, India

Vellore Institute of Technology

2020 – 2023

Bachelor of Computer Applications

Vellore, India

CERTIFICATIONS AND ACHIEVEMENTS

- ChatGPT and AI Tools Certification | IEEE Communication and Networking | Forms of Cyber Security | JavaScript and ReactJS - Google Developer Student Club
- Presented paper on *Secure Cloud Backup using Multi-Cloud and Fog Computing* at VIT SET Conference; served as NSS Student Volunteer.
